Quality

quality.html · dark mode · desktop 1440px

— QUALITY

Quality you can rely on, for safe medical supplies

Products manufactured under strict WHO GMP compliances, meeting national and international quality standards.

- WHO GMP
- National standards
- International standards

— OUR FOUNDATION

Three pillars of quality

Plaksha works to meet GMP expectations, and the team is trained for the same goal.

NATIONAL & INTERNATIONAL

Standards

Our products meet the National and International Quality Standards to ensure safe medical supplies.

STRICT COMPLIANCE

WHO GMP

Our products are manufactured under strict WHO GMP compliances.

TRAINED FOR GMP

People

Manufacturing by a team of highly qualified professionals, trained to meet GMP expectations.

— OUR COMMITMENTS

Six quality commitments

From raw material to the final product, these are the standards we hold ourselves to.

Our R&D Lab →

01 **Strict WHO GMP compliances**
Products are manufactured under strict WHO GMP compliances.

02 **National & international standards**
Our products meet National and International Quality Standards.

03 **Optimum quality raw material**
Products are made using optimum quality raw material.

04 **Highly qualified professionals**
Manufacturing is carried out by a team of highly qualified professionals.

05 **GMP-trained team**
We work to meet GMP expectations, and the team is trained for the same goal.

06 **Early R&D review**
A full R&D Lab deals with the criticality of products at an earlier stage.

— QA / QC APPROACH

Quality built in at every stage

STAGE 01
Raw material
Optimum quality raw material is the starting point for every product.

STAGE 02
Development
Product criticality is addressed early in our R&D Lab.

STAGE 03
GMP manufacturing
Production under strict WHO GMP compliances by a trained team.

STAGE 04
Standards met
Products meet national and international quality standards.

STAGE 05
Safe supply
Safe medical supplies, delivered within the stipulated time.

PROCESS DEVELOPMENT

From the lab to the plant, step by step

STEP 01	STEP 02	STEP 03	STEP 04
Assess criticality	**Lab development**	**Plant execution**	**GMP manufacturing**
Identify the critical aspects of a product at an earlier stage.	Our scientists develop and refine the product in the R&D Lab.	The same team executes the task in the plant.	Commercial production under strict WHO GMP compliances.

WHY CHOOSE PLAKSHA

Nine reasons to partner with us

A dynamic and committed professional organization, dedicated to customers. Here is what that means in practice.

- **Quality** — Built to standard — 01–03
- **People & R&D** — Expertise in lab and plant — 04–06
- **Supply** — Flexible, from one partner — 07–09

01 / 03

Quality

Built to standard

Every product follows national and international standards, under strict WHO GMP compliances.

01

National & international standards

Our products meet the National and International Quality Standards to ensure safe medical supplies.

02

Strict WHO GMP compliances

Our products are manufactured under strict WHO GMP compliances.

03

Working to GMP expectations

Plaksha believes in working to meet GMP expectations, and the team is trained for the same goal.

02 / 03

People & R&D

Expertise in lab and plant

A skilled scientific team and a full R&D Lab, backed by a dedicated professional organization.

04

25+ skilled scientists

A skilled team of more than 25 scientists with 2–25 years of experience to execute the task in the lab or in the plant.

05

Full R&D Lab

We have a full set-up of R&D Lab to deal with the criticality of products at an earlier stage.

06

Dedicated to customers

A dynamic and committed professional organization dedicated to customers.

03 / 03

Supply

Flexible, from one partner

A wide portfolio, manufacturing for the ROW market, and production shaped around your need.

07

A single solution for all products

Plaksha offers a wide range of product portfolio, and we believe in offering a single solution for all products.

08

Manufacturing for the ROW market

Our collaborated manufacturing units are currently manufacturing for the ROW market.

09

Made to your need

We can manufacture according to the need of the buyer, or according to the demand in the market.

25+	2–25	06	WHO GMP
Scientists in our team	Years of experience per scientist	Collaborated manufacturing plants	Strict compliance in manufacturing
